DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-23 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

To meet the requirements of 35 U.S.C. §101, "(t)he claimed invention as a whole must accomplish a practical application. That is, it must produce a useful, concrete and tangible result." M.P.E.P. § 2106(II)(A) (quoting *State Street Bank & Trust v. Signature Financial Group, Inc.*, 149 F.3d 1368, 1373, 47 USPQ2d 1596, 1601 (Fed. Cir. 1998)).

Claims 1-23 appear to be an abstract idea rather than a practical application of the idea. Claims 1-23 do not result in a physical transformation nor does it appear to provide a useful, concrete and tangible result. Therefore, claims 1-23 appear non-statutory.

With respect to claims 1-23, the prior arts of record do not disclose an interpretation system comprising: a first and the second modules which structurally

arranged and functionally operated as claimed. However, the claims are not allowable due to the USC 101 rejection discussed above.
